

# Eco-Lyme™

## Powerful Environmentally Friendly Descaler

# NEW

- Eco-Lyme provides unparalleled performance with an excellent eco-profile! Active ingredient is found in nature.
- Unique and versatile performer for the HVAC/R market. Descaling applications include cooling towers, evaporative coolers, boilers, processing equipment and more.
- New chemistry rapidly dissolves scale – similar in performance to hydrochloric acid; also described as hydrogen chloride.
- Eco-Lyme is significantly safer on metals than traditional hydrochloric acid. Chemistry accomplishes task and prolongs equipment life!
- Unlike competing products, Eco-Lyme is readily biodegradable.
- Eco-Lyme is odorless – making it safer to handle in the field.
- Low foaming chemistry for added safety.

### Packaging:

One Gallon Bottle	4167-08
Five Gallon Pail	4167-05
55 Gallon Drum	4167-01
