

**STEP 1 – Determine the Need**

- Does the contractor do their own Tridium Engineering?
- Does the contractor have a need to install Workbench and Workbench Pro on a separate PC to do offline engineering and graphical depictions of the system?
- If Yes to both questions, go to STEP 2

**STEP 2 – Contractor Yearly License Fee**

-Because some contractors will signup at different times of the year, a Pro-rated schedule is used for the first partial year to determine the cost. The fully licensed year begins Nov 1<sup>st</sup> and ends the following year Oct 31<sup>st</sup>. Determine how many months of Licensing will be needed using the following schedule:

Nov	11 Months
Dec	10 Months
Jan	9 Months
Feb	8 Months
Mar	7 Months
Apr	6 Months
May	5 Months
Jun	4 Months
Jul	3 Months
Aug	2 Months
Sep	1 Month

-----USE-----

LP-FXMBREN-0 Monthly support and renewal fee for one Non-Direct ABCS Office. Activates all engineering/demo versions of FX Tools Supervisor Pro and FX Supervisory Controllers registered for that office for a period of 1 month. Also includes the fees needed to perform all minor and major upgrades throughout the activation period.

-----OR-----

Oct 1 Year @ annual renewal

-----USE-----

LP-FXYBREN-0 Yearly support and renewal fee for one Non-Direct ABCS Office. Activates (or reactivates) all engineering/demo versions of FX Tools Supervisor Pro and FX Supervisory Controllers registered for that office for a period of 1 year (always expires the following October 31). Also includes the fees needed to perform all minor and major upgrades throughout the activation period.

Add LP-FXYBREN-0 or LP-FXMBREN-0 (x) months to the order.

**STEP 3 – Is This a new customer signup**

- If Yes add a one-time purchase of LP-FXSIGNUP-0 New customer signup fee. Required when ordering the initial Engineering/Demo versions of FX Tools Supervisor Pro and the corresponding yearly, office-wide support/renewal fee. Applies to ABCS Contractors, ABCS Distributors, and contractors purchasing from ABCS Distributors.
- Add LP-FXSIGNUP-0 to the order.

**STEP 4 – Determine how many users at the contractor company**

- Each user must have purchased a copy of the software.

-----USE-----

LP-FXWBDEM-0 License enabling the Engineering/Demo version of FX Workbench client software: Enables all features needed to engineer or demonstrate FX Supervisory Controllers and FX Server Stations. Intended for installing contractors. Requires annual support fee. Expires yearly. Order (LP-FXWB-COPY) or download software separately.

Add LP-FXWBDEM-0 to the order for each PC to be licensed.

Note: if the contractor adds a new PC under the company license at any time during the year, an additional copy of LP-FXWBDEM-0 must be purchased.
